

INFORMATION ABOUT YOUR LIBRARY

WELCOME!

The Library is for everyone who wants to learn and grow. From 0 to 100 years: everyone is welcome.

Whether you want to read for fun or you want to learn. You can come by for inspiration, relaxation, a question or a meeting; everything is allowed.

The Library houses a wealth of informative and inspiring materials, which can be found in our libraries and online via the website and the eBieb app.

ACTIVITIES IN THE LIBRARY

Throughout the year, the Library offers inspiring, creative and educational activities for young and old, to which non-members are also very welcome. There are regular lectures, book presentations, (youth) workshops, reading moments and courses.

There are also reading clubs, writing cafes and language cafes in various languages, at various locations.

EXPERT IN LANGUAGE, READING AND DIGITAL SKILLS

In the library you are welcome to practice your language, computer and internet skills. Join the Taal-cafe, the Klick & Tik or Digisterker courses. For questions about the Digital Government, you can contact the Digital Government Information Point. Inquire about it with an employee.

The Library is easily accessible and always close by. Of course via our libraries, but also online 24/7.

Make easy use of everything the library has to offer online. You can search, reserve and renew materials via your computer, tablet or smartphone. This can be done via My Menu on our website or in our eBieb app. You can pick up reserved books for free at the location of your choice.

FOR THE ELDERLY

De Kempen Library has materials that make reading and learning possible for a whole lifetime, such as large print books and audio books. The free library-to-home service ensures that materials are brought to you at home if necessary. There are also special subscriptions and theme packages for healthcare institutions.

THE LIBRARY FOR EDUCATIONAL INSTITUTIONS

The Library actively promotes reading, reading pleasure and digital literacy among children. We support pre-school education, primary education and secondary education.

More and more primary schools have a modern Library at School, where we work together on language development, reading pleasure and digital literacy. A reading/media consultant supports the teachers and parents in these tasks.

We also offer a versatile educational program for playgroups, childcare, primary schools and secondary education in the field of reading promotion, reading pleasure and digital literacy. You can find these products in our webshop on the website.
